

NOTICE OF PRIVACY PRACTICES

This Notice is effective September 1, 2013

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY

WE ARE REQUIRED BY LAW TO PROTECT MEDICAL INFORMATION ABOUT YOU

For the purposes of this Notice of Privacy Practices, "Ashley Clinic" refers to the covered entities Ashley Clinic, LLC; Ashley Pharmacy, Inc.; and Humboldt Pharmacy.

We are required by law to protect the privacy of medical information about you and that identifies you. This medical information may be information about healthcare we provide to you or payment for healthcare provided to you. It may also be information about your past, present, or future medical condition.

We are also required by law to provide you with this Notice of Privacy Practices explaining our legal duties and privacy practices with respect to medical information. We are legally required to follow the terms of this Notice. In other words, we are only allowed to use and disclose medical information in the manner that we have described in this Notice.

We may change the terms of this Notice in the future. We reserve the right to make changes and to make the new Notice effective for *all* medical information that we maintain. If we make changes to the Notice, we will:

- Post the new Notice in our waiting area.
- Have copies of the new Notice available upon request. Please contact our Privacy Officer at **(620) 431-2500** to obtain a copy of our current Notice.

The rest of this Notice will:

- Discuss how we may use and disclose medical information about you.
- Explain your rights with respect to medical information about you.
- Describe how and where you may file a privacy-related complaint.

If, at any time, you have questions about information in this Notice or about our privacy policies, procedures or practices, you can contact our Privacy Officer at **(620) 431-2500**.

WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU IN SEVERAL CIRCUMSTANCES

We use and disclose medical information about patients every day. This section of our Notice explains in some detail how we may use and disclose medical information about you in order to provide healthcare, obtain payment for that healthcare, and operate our business efficiently. This section then briefly mentions several other circumstances in which we may use or disclose medical information about you.

For more information about any of these uses or disclosures, or about any of our privacy policies, procedures or practices, contact our Privacy Officer at **(620) 431-2500**.

1. Treatment

We may use and disclose medical information about you to provide healthcare treatment to you. In other words, we may use and disclose medical information about you to provide, coordinate or manage your healthcare and related services. This may include communicating with other healthcare providers regarding your treatment and coordinating and managing your healthcare with others.

Example: Jane is a patient at the clinic. The receptionist may use medical information about Jane when setting up an appointment. The doctor will likely use medical information about Jane when reviewing Jane's condition and ordering a blood test. The laboratory technician will likely use medical information about Jane when processing or reviewing her blood test results. If, after reviewing the results of the blood test, the nurse practitioner concludes that Jane should be referred to a specialist, the nurse may disclose medical information about Jane to the specialist to assist the specialist in providing appropriate care to Jane.

2. Payment

We may use and disclose medical information about you to obtain payment for healthcare services that you received. This means that, within the clinic, we may *use* medical information about you to arrange for payment (such as preparing bills and managing accounts). We also may *disclose* medical information about you to others (such as insurers, collection agencies, and consumer reporting agencies). In some instances, we may disclose medical information about you to an insurance plan *before* you receive certain healthcare services because, for example, we may need to know whether the insurance plan will pay for a particular service.

Example: Jane is a patient at the clinic and she has private insurance. During an appointment with a doctor, the doctor ordered a blood test. The clinic billing clerk will *use* medical information about Jane when he prepares a bill for the services provided at the appointment and the blood test. Medical information about Jane will be *disclosed* to her insurance company when the billing clerk sends in the bill.

3. Healthcare Operations

We may use and disclose medical information about you in performing a variety of business activities that we call "healthcare operations." These "healthcare operations" activities allow us to, for example, improve the quality of care we provide and reduce healthcare costs. For example, we may use or disclose medical information about you in performing the following activities:

- Reviewing and evaluating the skills, qualifications, and performance of healthcare providers taking care of you.
- Providing training programs for students, trainees, healthcare providers or non-healthcare professionals to help them practice or improve their skills.
- Cooperating with outside organizations that evaluate, certify or license healthcare providers, staff or facilities in a particular field or specialty.
- Reviewing and improving the quality, efficiency and cost of care that we provide to you and our other patients.
- Improving healthcare and lowering costs for groups of people who have similar health problems and helping manage and coordinate the care for these groups of people.

- Cooperating with outside organizations that assess the quality of the care others and we provide, including government agencies and private organizations.
- Planning for our organization's future operations.
- Resolving grievances within our organization.
- Reviewing our activities and using or disclosing medical information in the event that control of our organization significantly changes.
- Working with others (such as lawyers, accountants and other providers) who assist us to comply with this Notice and other applicable laws.

Example: Jane was diagnosed with diabetes. The clinic used Jane's medical information – as well as medical information from all of the other clinic patients diagnosed with diabetes – to develop an educational program to help patients recognize the early symptoms of diabetes. (Note: The educational program would not identify any specific patients without their permission).

4. Business Associate Agreements

Ashley Clinic provides services through business associate contracts, for which we may disclose protected health information about you so that they may perform the job that we have asked them to do, and bill you or your third-party payer for the services rendered. We require the business associate to appropriately safeguard your protected health information through a **Business Associate Agreement** with Ashley Clinic. Examples include clearinghouses for billing, software vendors, some insurers, and drug wholesalers.

5. Persons Involved in Your Care

We may disclose medical information about you to a relative, close personal friend or any other person you identify if that person is involved in your care and the information is relevant to your care. If the patient is a minor, we may disclose medical information about the minor to a parent, guardian or other person responsible for the minor except in limited circumstances. For more information on the privacy of minors' information, contact our Privacy Officer at **(620) 431-2500**.

We may also use or disclose medical information about you to a relative, another person involved in your care or possibly a disaster relief organization (such as the Red Cross) if we need to notify someone about your location or condition.

You may ask us at any time not to disclose medical information about you to persons involved in your care. We will agree to your request and not disclose the information except in certain limited circumstances (such as emergencies) or if the patient is a minor. If the patient is a minor, we may or may not be able to agree to your request.

Example: Jane's husband regularly comes to the clinic with Jane for her appointments and he helps her with her medication. When the doctor is discussing a new medication with Jane, Jane invites her husband to come into the private room. The doctor discusses the new medication with Jane and Jane's husband.

6. Required by Law

We will use and disclose medical information about you whenever we are required by law to do so. There are many state and federal laws that require us to use and disclose medical information. For example, state law requires us to report gunshot wounds and other injuries to the police and to report known or suspected child abuse or neglect to the Department of Social Services. We will comply with those state laws and with all other applicable laws.

7. National Priority Uses and Disclosures

When permitted by law, we may use or disclose medical information about you without your permission for various activities that are recognized as "national priorities." In other words, the government has determined that under certain circumstances (described below), it is so important to disclose medical information that it is acceptable to disclose medical information without the individual's permission. We will only disclose medical information about you in the following circumstances when we are permitted to

do so by law. Below are brief descriptions of the “national priority” activities recognized by law. For more information on these types of disclosures, contact our Privacy Officer at **(620) 431-2500**.

- **Threat to health or safety:** We may use or disclose medical information about you if we believe it is necessary to prevent or lessen a serious threat to health or safety.
- **Public health activities:** We may use or disclose medical information about you for public health activities. Public health activities require the use of medical information for various activities, including, but not limited to, activities related to investigating diseases, reporting child abuse and neglect, monitoring drugs or devices regulated by the Food and Drug Administration, and monitoring work-related illnesses or injuries. For example, if you have been exposed to a communicable disease (such as a sexually transmitted disease), we may report it to the State and take other actions to prevent the spread of the disease.
- **Abuse, neglect or domestic violence:** We may disclose medical information about you to a government authority (such as the Department of Social Services) if you are an adult and we reasonably believe that you may be a victim of abuse, neglect or domestic violence.
- **Health oversight activities:** We may disclose medical information about you to a health oversight agency – which is basically an agency responsible for overseeing the healthcare system or certain government programs. For example, a government agency may request information from us while they are investigating possible insurance fraud.
- **Court proceedings:** We may disclose medical information about you to a court or an officer of the court (such as an attorney). For example, we would disclose medical information about you to a court if a judge orders us to do so.
- **Law enforcement:** We may disclose medical information about you to a law enforcement official for specific law enforcement purposes. For example, we may disclose limited medical information about you to a police officer if the officer needs the information to help find or identify a missing person.
- **Coroners and others:** We may disclose medical information about you to a coroner, medical examiner, or funeral director or to organizations that help with organ, eye and tissue transplants.
- **Workers’ compensation:** We may disclose medical information about you in order to comply with workers’ compensation laws.
- **Research organizations:** We may use or disclose medical information about you to research organizations if the organization has satisfied certain conditions about protecting the privacy of medical information.
- **Certain government functions:** We may use or disclose medical information about you for certain government functions, including but not limited to military and veterans’ activities and national security and intelligence activities. We may also use or disclose medical information about you to a correctional institution in some circumstances where that information may be needed for health care purposes.

8. Authorizations

Other than the uses and disclosures described above (#1-6), we will not use or disclose medical information about you without the “authorization” – or signed permission – of you or your personal representative. In some instances, we may wish to use or disclose medical information about you and we may contact you to ask you to sign an authorization form. In other instances, you may contact us to ask us to disclose medical information and we will ask you to sign an authorization form.

If you sign a written authorization allowing us to disclose medical information about you, you may later revoke (or cancel) your authorization in writing (except in very limited circumstances related to obtaining insurance coverage). If you would like to revoke your authorization, you may write us a letter revoking your authorization. If you revoke your authorization, we will follow your instructions except to the extent that we have already relied upon your authorization and taken some action.

The following uses and disclosures of medical information about you will only be made with your authorization (signed permission):

- ✓ Uses and disclosures for marketing purposes.
- ✓ Uses and disclosures that constitute the sales of medical information about you.
- ✓ Most uses and disclosures of psychotherapy notes, if we maintain psychotherapy notes.
- ✓ Any other uses and disclosures not described in this Notice.

**YOU HAVE RIGHTS WITH RESPECT
TO MEDICAL INFORMATION ABOUT YOU**

You have several rights with respect to medical information about you. This section of the Notice will briefly mention each of these rights. If you would like to know more about your rights, please contact our Privacy Officer at **(620) 431-2500**.

1. Right to a Copy of This Notice

You have a right to have a paper copy of our Notice of Privacy Practices at any time. In addition, a copy of this Notice will always be posted in our waiting area. If you would like to have a copy of our Notice, ask the receptionist for a copy or contact our Privacy Officer at **(620) 431-2500**.

2. Right of Access to Inspect and Copy

You have the right to inspect (which means see or review) and receive a copy of medical information about you that we maintain in certain groups of records. If we maintain your medical records in an Electronic Health Record (EHR) system, you may obtain an electronic copy of your medical records. You may also instruct us in writing to send an electronic copy of your medical records to a third party. If you would like to inspect or receive a copy of medical information about you, you must provide us with a request in writing. You may write us a letter requesting access or fill out an **Access Request Form**. Access Request Forms are available from our Privacy Officer. We do not believe that email transmission is a secure method of communication and would not recommend that you select email for purposes of receiving your PHI.

We may deny your request in certain circumstances. If we deny your request, we will explain our reason for doing so in writing. We will also inform you in writing if you have the right to have our decision reviewed by another person.

If you would like a copy of the medical information about you, we will charge you a fee to cover the costs of the copy. Our fees for electronic copies of your medical records will be limited to the direct labor costs associated with fulfilling your request.

We may be able to provide you with a summary or explanation of the information. Contact our Privacy Officer for more information on these services and any possible additional fees.

3. Right to Have Medical Information Amended

You have the right to have us amend (which means correct or supplement) medical information about you that we maintain in certain groups of records. If you believe that we have information that is either inaccurate or incomplete, we may amend the information to indicate the problem and notify others who have copies of the inaccurate or incomplete information. If you would like us to amend information, you must provide us with a request in writing and explain why you would like us to amend the information. You may either write us a letter requesting an amendment or fill out an **Amendment Request Form**. Amendment Request Forms are available from our Privacy Officer.

We may deny your request in certain circumstances. If we deny your request, we will explain our reason for doing so in writing. You will have the opportunity to send us a statement explaining why you disagree with our decision to deny your amendment request and we will share your statement whenever we disclose the information in the future.

4. Right to an Accounting of Disclosures We Have Made

You have the right to receive an accounting (which means a detailed listing) of disclosures that we have made for the previous six (6) years. If you would like to receive an accounting, you may send us a letter requesting an accounting, fill out an **Accounting Request Form**, or contact our Privacy Officer. Accounting Request Forms are available from our Privacy Officer.

The accounting will not include several types of disclosures, including disclosures for treatment, payment or healthcare operations. If we maintain your medical records in an Electronic Health Record (EHR) system, you may request that include disclosures for treatment, payment or healthcare operations. The accounting will also not include disclosures made prior to April 14, 2003.

If you request an accounting more than once every twelve (12) months, we may charge you a fee to cover the costs of preparing the accounting.

5. Right to Request Restrictions on Uses and Disclosures

You have the right to request that we limit the use and disclosure of medical information about you for treatment, payment and healthcare operations. Under federal law, we must agree to your request and comply with your requested restriction(s) if:

1. Except as otherwise required by law, the disclosure is to a health plan for purpose of carrying out payment of healthcare operations (and is not for purposes of carrying out treatment); and,
2. The medical information pertains solely to a healthcare item or service for which the healthcare provided involved has been paid out-of-pocket in full.

Once we agree to your request, we must follow your restrictions (except if the information is necessary for emergency treatment). You may cancel the restrictions at any time. In addition, we may cancel a restriction at any time as long as we notify you of the cancellation and continue to apply the restriction to information collected before the cancellation.

You also have the right to request that we restrict disclosures of your medical information and healthcare treatment(s) to a health plan (health insurer) or other party, when that information relates solely to a healthcare item or service for which you, or another person on your behalf (other than a health plan), has paid us for in full. Once you have requested such restriction(s), and your payment in full has been received, we must follow your restriction(s).

6. Right to Request an Alternative Method of Contact

You have the right to request to be contacted at a different location or by a different method. For example, you may prefer to have all written information mailed to your work address rather than to your home address.

We will agree to any reasonable request for alternative methods of contact. If you would like to request an alternative method of contact, you must provide us with a request in writing. You may write us a letter or fill out the appropriate section of a **Request for Additional Privacy** form. Request for Additional Privacy Forms are available from our Privacy Officer.

7. Right to Notification if a Breach of Your Medical Information Occurs

You also have the right to be notified in the event of a breach of medical information about you. If a breach of your medical information occurs, and if that information is unsecured (not encrypted), we will notify you promptly with the following information:

- ✓ A brief description of what happened;
- ✓ A description of the health information that was involved;
- ✓ Recommended steps you can take to protect yourself from harm;
- ✓ What steps we are taking in response to the breach; and,
- ✓ Contact procedures so you can obtain further information.

8. Right to Opt-Out of Fundraising Communications

If we conduct fundraising and we use communications like the U.S. Postal Service or electronic email for fundraising, you have the right to opt-out of receiving such communications from us. Please contact our Privacy Officer to opt-out of fundraising communications if you chose to do so.

9. Rights Regarding Electronic Health Information Exchange

As explained above, health care providers and health plans may use and disclose your health information without your written authorization for purposes of treatment, payment, and health care operations. Until now, providers and health plans have exchanged this information directly by hand-delivery, mail, facsimile, or e-mail. This process is time-consuming, expensive, not secure, and often unreliable.

Electronic health information exchange, or HIE, changes this process. New technology allows a provider or a health plan to submit a single request through a health information organization, or HIO, to obtain electronic records for a specific patient from other HIE participants.

An organization known as the Kansas Health Information Exchange, or KHIE, regulates HIOs operating in Kansas. Only properly authorized individuals may access information through an HIO operating in Kansas, and only for purposes of treatment, payment, or health care operations.

Under Kansas law, you have the right to decide whether providers and health plans can access your health information through an HIO. You have two choices. First, you can permit authorized individuals to access your electronic health information through an HIO for treatment, payment, or health care operations only. If you choose this option, you do not have to do anything.

Second, you can restrict access to all of your electronic health information through any HIO operating in Kansas with the exception of access by properly authorized individuals as needed to report specific information as required by law (for example, reporting of certain communicable diseases or suspected incidents of abuse).

If you wish to restrict access, you must complete and submit the required form to KHIE. You must provide specific information needed to put your requested restrictions in place. The form is available [here](#). You cannot request restrictions on access to certain information and permit access to all other information; your choice is to permit access to all of your information or restrict access to all of your information.

For your protection, each request is subject to verification procedures which may take several days to complete. Your failure to provide all information on the required form may result in additional delay.

Once your request has been processed, your electronic health information no longer will be available through HIOs operating in Kansas except for mandatory reporting requirements. You may change your mind at any time and permit access by submitting another request to KHIE.

Please understand your decision to restrict access to your electronic health information through an HIO will limit your health care providers' ability to provide the most effective care for you. By submitting a request for restrictions, you accept the risks associated with that decision.

If you have questions regarding electronic health information exchange or HIOs, please visit <http://khionline.org> for additional information.

Your decision to restrict access to your electronic health information through an HIO does not impact other disclosures of your health information. Providers and health plans may continue to share your information directly through other means (such as by facsimile or secure e-mail) without your specific written authorization.

10. Acknowledgement of Receipt

You will be asked to sign an acknowledgement of receipt of this Notice of Privacy Practices. If you have any questions regarding this Notice of Privacy Practices, please contact our Privacy Officer at **(620) 431-2500** for more information or clarification.

**YOU MAY FILE A COMPLAINT
ABOUT OUR PRIVACY PRACTICES**

If you believe that your privacy rights have been violated or if you are dissatisfied with our privacy policies or procedures, you may file a written complaint either with us or with the federal government.

We will not take any action against you or change our treatment of you in any way if you file a complaint.

To file a written complaint with us, you may bring your complaint directly to our Privacy Officer, or you may mail it to the following address:

**ATTN: Privacy Officer
Ashley Clinic
P. O. Box 946
Chanute, KS 66720**

To file a written complaint with the federal government, please use the following contact information:

Office for Civil Rights
